Troops not to be Used in Breaking up Illicit Distilleries--Cabinet Meeting, Etc.

Telegraph to the News.

WASHINGTON, Oct. 10.—The Government decides that troops cannot now be used to aid in breaking up illicit distilleries in Arkansas as requested by the collector at Little Rock. The Internal Revenue Commissioner has, however, written to the Collector authorizing him to employ as large a force as necessary to seize the stills and secure the arrest of the offenders. The force will be well armed. The collector is instructed to organize a force large enough to overcome resistance without bloodshed if possible.

The greater portion of the cabinet session to-day was devoted to the consideration of estimates for the ensuing fiscal year.

It is generally understood that the falling off in revenues renders absolutely necessary a corresponding reduction of expenses.

Another subject briefly discussed was the revenue troubles in Arkansas. The opinion of the Attorney General was, in effect, that the civil authorities must exhaust all means to enforce the laws before the military can be used.

The Assistant Attorney General for the Post Office Department has gone to Little Rock to represent the Government in the prosecution of several cases of alleged violations of postal laws.

Miss Isabella Carter, sister of the Inteior Department agent, Carter, who recently died from yellow fever in Mississippi, has received an appointment in the Land Office.

He said the day would come when the socialists would take up arms. The President of the Reichstag called him to order saying that the speech was incendiary. He then said he was not personally in favor of revolution, but preferred pacific measures. But he said that Bismarck should remember 1848. The insolent agitator was told that socialism should be repressed, and that this was a necessary measure, as the integrity of the empire would otherwise be in danger.

Fine Crops--Summer Visitors--The Spartansburg and Asheville Railroad.

Correspondence of the News.

RUTHERFORDTON, Oct. 8th.

Since the late election our county has been remarkably quiet. The complaints that two months ago were made with regard to the failure of crops in this vicinity are not heard now, but I am unable to say whether it is so for the reason that they have proved better than was expected or whether the farmers have become resigned to their fate and have ceased to speak of it on that account. However, I think it can be safely said that there will be enough corn, wheat, bacon, tobacco, etc, raised in the county for home consumption and some for market. It seems to be a great mistake which some of our farmers on a small scale sometimes make, that in the autumn they dispose of so much of their produce as to be forced to buy before the next harvest, thereby exposing their produce to sale while it is cheap, and making it necessary to buy when the prices are up.

The western part of the State has been alive with visitors from various parts of the United States during the summer; but I found on a little trip across the mountains a few days since, that most of them have returned to their homes, very few being left except those who own summer residences in the mountains.

I found also, that the Spartanburg and Asheville Railroad is graded to Hendersonville, and the train now runs to within six miles of that village. There are several beautifully situated lots in the place unimproved, that can be bought at reasonable prices. Some of the lots contain four or five acres and with some capital could be converted into the most attractive grounds upon which to erect buildings.

Owing to the changes that have been made in the Judicial Districts of the State and the ridings of the judges, our court does not convene until the second Monday in November.

On Sunday evening last a difficulty occurred at Miller's grocery, one mile from our village, between Harry Churchill, of this place, and Wm. Elwood, in which Churchill had an arm broken, a wrist sprained and a cut upon the forehead. Elwood was uninjured. Both parties were drinking.

THE POISONING CASE.

The Body Disinterred--Damning Proof.

Correspondence of the News.

CHAPEL HILL, N. C., Oct. 10.

I wrote some time ago about the disinterment of the body of Louis Calton's wife, who died suddenly in June last, under suspicion of being poisoned. Since her death, Louis, her husband, has been found to be one of the gang of burglars, who broke into the house of Mrs. Herndon and others. The sudden and strange death of Louis' wife a few days after Mrs. Herdon's house was entered, and the fact that he and his wife had quarreled and she had made some threats against him, had awakened the suspicions of the public. The body was taken up some three weeks ago and the stomach and liver turned over to Prof. Redd, of the University, for examination. It is understood that the stomach contained broken glass and corrosive sublimate.

Louis and the other three burglars are in Hillsboro jail awaiting their trial on seven capital felonies, all burglary.

Louis consoled himself after the loss of his wife by marrying again in three weeks from the death of the first.

Public Spirited.

Correspondence of the News.

RALEIGH, Oct. 11, 1878.

The News has been invariably the most spirited paper we have ever had in Raleigh. Your late suggestions recommending the establishment of a a Signal Service Station here, and of letter boxes at the street corners, are good. They will serve a public need, and it is to be trusted that Senator Merrimon and Capt. Davis, being our more immediate representatives, will look after the matter.

Military Display at the Carolina Fair.

Charlotte Observer.

Col. C. W. Alexander informs us that it is his purpose to have a military display in Charlotte during the Carolina Fair, which will be the largest ever seen here. All the companies composing the second regiment will be invited and urged to be present, together with companies from Wilmington and Columbia, Statesville and elsewhere. The easy accessibility of Charlotte to all these places leads us to expect that many of the companies will be able to accept the invitations, and that the display will be a handsome one indeed. Adjutant General Jones has already consented to be present and to render the undertaking all the aid he can. Of course Governor Vance will be here—there couldn't be a Fair in Charlotte without Gov. Vance—and will review the troops.

This will be another attractive feature of the Fair, and will serve to greatly increase the interest in the occasion.

WASHINGTON, D. C., Oct. 11.—Company "F," First Virginia Regiment, arrived at 1.20 this morning, and was met at the depot by the Washington Light Infantry Corps, and escorted to their armory. There was a brilliant pyrotechnic display during the march from the depot to their armory.

Queer Charitable Contributions.

Memphis Avalanche.

The Howards occupy three stores in the Adams block on Second street. Here, in these spacious rooms, are deposited the contributions of the charitable from all parts of the world. While there is an immense quantity of articles necessary for the maintenance of our destitute people, there is a very large variety of entirely useless provisions and clothing of all sorts and condition, that cannot be sold or given away. The pious souls who have shown their great hearts by sending us bottled fruits, preserves and jam of all sorts, home-made wine, potatoes, onions and perishable stuff, that can neither be sold nor given away, have our hearty thanks. We take the will for the deed, and thank them as sincerely as if their offerings were of the utmost service. Some of those bottled fruits would kill old man Goepel himself, if he dared to eat them. The potatoes are perishable, and can neither be used nor sold. When we pass to the dry goods and clothing department, we find a still larger amount of incongruous and useless articles. Great boxes of hats, caps and second-hand clothing. So much of this stuff is so utterly useless that we must laugh at the donors' lack of knowledge of our wants, but when we think of the generous spirit that has prompted these liberal donations, we feel more like crying.

An Irate Wife.

The jealous wife of a Cincinnati shoemaker admitted that it was necessary for him to put on women the new shoes that they bought, but she objected to his performing that service in the case of old and consequently easy shoes. A young woman went into his shop to have her shoe mended while she waited. When it was finished she placed her foot in his lap to have it put on and buttoned. While he was absorbed in this his wife came to the door, and the scene aroused her jealousy. She went out and got a clothes-line, doubled it to convenient length, came back, and remarking to him that she had been married to him fifteen years, and he had never offered to put on her shoes, she gave him a lashing with the rope in the presence of the innocent customer.

In view of the falling off in the revenues of the government, the heads of the different departments will place their estimates for the next fiscal year as low as possible.

The San Francisco Chronicle says the tide of emigration from the Atlantic States to the Pacific Coast has again set in on a large scale, almost equaling the great rush of three years ago. The arrivals by overland railroad now average over one hundred daily.

The Pension Office in Washington gives notice to whom it may concern that the services of pension lawyers and claim agents are of no value whatever in advancing the interests of applicants for pensions. The bureau furnishes blanks that cover the whole business, on application, and they can be filled by a notary public without the help of professed experts.

Owing to its fragile character paper money is easily destroyed; it is also easily lost. There is no doubt that the great bulk of the $16,297,429 of fractional currency outstanding which has not been presented at the Treasury for redemption will never be presented. It is lost, worn out or destroyed. This is a clear gain to the Government, but it is a dead loss to the unlucky owners of the fractionals, except in their slight pro rata of the general benefit.

From this distance it looks as if the raiding Cheyenne Indians might overrun the whole State of Kansas if the Government did not interfere for its protection. The time has been when two or three hundred savages would have found it dangerous to carry war into a populous State, with a railroad leading directly to the seat of difficulty and a well-ordered Government supposed to be in its right mind.

The immortal J. N. has devised the following method of paying off the national debt without cost to the people: 1st. Convey to the Indians the whole of the public domain. 2d. Require all creditors of the United States to look to the Indians for the payment of their claims. 3d. Let the government do as it always has done before—steal back the public lands from the Indians.

Paying Pedestrianism.

O'Leary and Hughes made a comfortable thing of their weary walk in Gilmore's garden, New York, last week. Under agreement the garden managers were to receive one half of the receipts, O'Leary three-eighths, and Hughes one-eighth. The cash taken in was $17,000. The champion's share, therefore, amounted to something more than $1000 a day for his six days' labor, while Hughes pocketed over $2000 for being a hundred miles, or threabouts, behind. In the Chicago match between Weston and O'Leary, the pedestrians divided $20,000, and for his walk in the rink Weston received $7000.

Valuables as Third-Class Mail Matter.

If parties desire to send "coin" as third-class matter, in the exposed condition required by the laws governing the transmission of third-class matter, registered or not registered, they may do so, but it must be at their own risk, neither the department nor its revenues being liable in any case of loss of packages or their contents; and though it is the Postmaster's duty to examine packages of third-class matter offered for registration he must not in any case give a receipt showing their contents. These instructions apply to any description of valuable mail matter offered for registration at third-class rates of postage.

CHEROKEE COUNTY.

An Old Man Murdered---The Mystery of the Crime.

Correspondence of the News.

MURPHY, N. C., Oct. 6th, 1878.

On Thursday morning last, Mr. James Ross, of this county, was found dead in his field, a short distance from his residence. He had gotten up very early and went to the field to run out some of his neighbor's hogs (Mr. Michaels.) In a short time, perhaps one hour thereafter, a young man by the name of Taylor, who was staying with Michael, reported to Ross' family that he had found the old man lying dead in the field. The Coroner of the county, P. M. G. Rhea, was sent for, also Dr. Benj. Mayfield. The former collected a jury who, upon examination, found that Ross had received a severe blow with a stick on the back part of his head, disjointing the head from the neck. Many witnesses were examined, but the guilty party could not be ascertained, yet there is no doubt the old man was murdered. Coroner Rhea returned to town this evening making the foregoing report. It is to be hoped that the guilty party will be detected. Taylor is a boy about 18 or 20 years of age. Suspicion rests on Michael and Taylor. The matter will be looked after further.

AN ANTIQUE DOCUMENT.

The Sentence of Death Pronounced Upon the Redeemer.

New York Sun.

The following is a copy of the most memorable judicial sentence which has ever been pronounced in the annals of the world:

Sentence pronounced by Pontius Pilate, Intendant of the Lower Province of Lower Galilee, that Jesus of Nazareth shall suffer death by the cross. In the seventeenth year of the reign of the Emperor Tiberius, and on the 24th day of the month March, in the most holy city of Jerusalem, during the pontificate of Annas and Caiaphas, Pontius Pilate, Intendant of the province of Lower Galilee, sitting to judgment in the presidectial seat of the Prætor, sentences Jesus of Nazareth to death on a cross, between robbers, as the numerous and notorious testimonies of the people prove.

1. Jesus is a misleader.
2. He has excited the people to sedition.
3. He is an enemy to the laws.
4. He calls himself the Son of God.
5. He calls himself falsely the King of Israel.
6. He went into the temple followed by a multitude carrying palms in their hands.

Orders from the first centurion, Quirrills Corvelius, to bring him to the place of execution.

Forbids all persons, rich or poor, to prevent the execution of Jesus.

The witnesses who have signed the execution of Jesus are—

1. Daniel Robani Parisco.
2. John Zorbabel.
3. Rapheal Robani.
4. Capet.

Jesus to be taken out of Jerusalem through the gates of Tournes.

This sentence is engraved on a plate of brass in the Hebrew language, and on its sides are the following words:

"A similar plate has been sent to each tribe."

It was discovered in the year 1380, in the kingdom of Naples, in a search made for Roman antiquities, and remained there until it was found by the Commissioner of Arts in the French army in Italy. Up to the time of the campaign in Italy, it was preserved in the sacrsity of the Carthusians, near Naples, where it was kept in a box of ebony. Since then the relic has been in the chapel of Casseria. The Carthusians obtained by their petitions permission to keep the plate, which was an acknowledgement of the sacrifices which they made for the French army. The French translation was made literally by the members of the Commission of Arts. Demon had a fac simile of the plate engraved, which was bought by Lord Howard, on the sale of his cabinet, for 2,800f. There seems to be no historical doubts as to the authenticity of this. The reasons of the sentence correspond exactly with those in the Gospel.

Good Doctrine.

Correspondence of the News.

GOLDSBORO, Oct. 11.

The editorial in this morning's News on the Vance-Merrimon question is good doctrine. It is hard to see how any Democratic paper can give even a quasi support to Judge Merrimon until he announces, or authorizes the announcement, that he will abide the will of the Democratic party. We esteem the News the ablest daily ever published at the State capital. It is one of the most popular dailes in the State and has always been found under all circumstances true as steel to the Democratic organization. It opposed the bolters in 1872 as strenously as it does to-day.

SUSCRIBER.

Should Christians Smoke?

United States Tobacco Journal.

Last week there was a meeting of Baptist ministers in this city. Among other questions brought forward for discussion was whether it was right for Christians to use tobacco. A good many of them very sensibly said that they thought a man was no less a Christian because he used it. The Rev. Mr. Haines said he liked his cigar, and could see no harm in smoking. Brother Hughes very truthfully remarked that it was a useless discussion, because those who felt so inclined would smoke despite what ministers might say, and that many clergymen were great smokers. Brother Halsey Knapp said he was a smoker, and always has been, and always will be while it agrees with him. Of course, he said, there are different reasons for nagging a man about smoking. It may be that the objector some time or other has been made very sick while trying to use tobacco; and Brother Knapp put his hand to his head and made a wry face, which caused the brethren to laugh, whereupon the meeting adjourned.

The Way they do it out West

Washington Star.

Adolph Sulton, a liveryman in Pioche, Nev., discharged Fred Dwyer, a drunken employee. On the following morning he received a note from Dwyer saying, "I am coming to see you to-day." Soon afterward a boy came with the message, "Dwyer sent me up to say he'd be here pretty soon." Next a stage driver pulled up his horses to say, "I passed Fred Dwyer down the road, and he wanted me to tell you he'd be right along." Sultan wondered why Dwyer had taken so much trouble to give such trifling information, and, while he was thinking about it, his son ran in and said, "Fred's coming to kill you—he says so." Sultan hastily armed himself. Dwyer soon came up, drew a revolver, fired, and missed his mark, but received three bullets in his body and died.

A Remarkable Result.

It makes no difference how many Physicians, or how much medicine you have tried, it is now an established fact that German Syrup is the only remedy which has given complete satisfaction in severe cases of Lung Diseases. It is true there are yet thousands of persons who are predisposed to Throat and Lung Affections, Consumption, Hemorrhages. Asthma, Severe Colds settled on the Breast, Pneumonia, Whooping Cough, &c., who have no personal knowledge of Coschee's German Syrup. To such we would say that 50,000 dozen were sold last year without one complaint. Consumptives try just one bottle. Regular size 75 cents. Sold by all Druggists in America.

ELECTION—TUESDAY, NOVEMBER 5TH.

The Campbells are Coming.

Our Canadian friends are nearly beside themselves for joy because the son-in-law of the Queen, the Marquis of Lorne, is to be sent out as Governor General of the Dominion and will be accompanied by his wife, the Princess Louise.

As is well known, the father of the Marquis of Lorne is the Duke of Argyle, hereditary head of the historic clan Campbell.

For six generations, from the thirteenth to the fifteenth century, the head of this famous Campbell family received the honor of knighthood as a matter of course. In 1445 Sir Duncan was created Lord Campbell, and his grandson was made an Earl, under the distinction of Earl of Argyle and Lord of Lorne. In 1641 the eighth Earl was made a Marquis by King Charles, under peculiar circumstances. He had fought against the King and his allies, and as late as 164 had marched against the Earl of Athol, who was in arms for the King. Yet, in 1641, when the King visited Edinburgh he sent for his foeman and made him a Marquis.

In 1701 the tenth Earl was made Duke of Argyle, Marquis of Lorne and Kintyre, Earl Campbell and Cowal, Viscount Lochow and Glenilla, Baron Inverary, Mull, Morven, and Tiry. A man, one would think, might find it difficult to carry more titles than these; but the second Duke, in addition to his hereditary title of Argyle, was created Baron Chatham, Earl of Greenwich, and Duke of Greenwich. His brother, who succeeded him, was raised to the peerage before he came to the ducal honors, by the titles of Viscount and Earl of Isla and Baron Oronsay, Dunoon, and Avrose. The fifth Duke was made Baron Sundridge in his father's lifetime; while the sixth Duke, before coming into the chief honors of the family, sat in the House of Lords as Baron Hamilton. The younger branches of the family have also had honors and distinctions showered upon them. They have borne the titles of Earl of Athol, Earl of London, Baron Clyde, Baron Kintyre, Baron Campbell, Baroness Stratheden, &c. The chiefs have been decorated with the Garter and the Thistle. They have exercised as much influence in English affairs as in Scotch. They have set up and overthrown Kings; if they have never sat on the throne, they have carried the crown at coronations; they have been great in the Senate and the field. One Argyle fell at Halidon Hill; another breathed his last at Flodden Field.

Judge Merrimon.

Judge Merrimon's friends are making a seemingly quiet but really very active canvass for him. In this country every man of the requisite age and length of residence has a right to aspire to a seat in the U. S. Senate. But before a candidate's friends press him upon Democrats as a candidate for Democratic votes they should be prepared to say whether he will abide the will of the majority—whether he will go into a caucus of the Democratic members elect to the Legislature, and stand or fall by their voice. Can Judge Merrimon's friends do that? We pause for a reply.

A Heavy Indictment.

A New York correspondent of the Baltimore American, speaking of the rapidity with which the women of that city are pushing themselves forward in business enterprises, gives a number of facts in illustration. One of these is the following.

The other day a very nice-looking young woman called at the house of a friend to execute some orders in regard to the covering of furniture and the putting up of summer window curtains. Her appearance was so thoroughly good and fitted to her work that my friend could hardly believe she was the person. It expressed, as she phrased it, to much "culture." She proved, however, to be the woman superintendent of the upholstery department of one of our most famous and fashionable furniture and decorating houses, and lightly climbed a step-ladder and proceeded, in a workmanlike way, to get on the outside of a window in the furtherance of the object she had to accomplish. My friend, who is a lady of observation and intelligence, became very much interested in her, and noticing a plain gold ring on her finger, asked if she were married.

"No, thank God," was the reply.

"Why are you thankful that you are not married?" asked Mrs. H. "Because I have two sisters who are married," she said, "and I have to work, not only to support myself and my mother, but to help support their children."

And then the correspondent goes on to prefer this heavy charge against the young men of his acquaintance:

Few men marry now-a-days with any intention of fulfilling their natural obligations and properly supporting a wife and family. When they are not ancient widowers who can afford to buy a young girl as a luxury for their old age, they are generally thoughtless and selfish young men, who would rather be taken care of than forced to assume any responsibility. The majority, who are capable of earning a living, do not even contemplate marriage. The clubs offer them the "comforts of home," and they prefer to spend their money on themselves. This is well enough so far as they are individually concerned, until they have reached the age when a personal sympathy and companionship are worth more than anything else in the world, and they begin to regret their lost opportunities.

How far is that allegation true of Southern young men? Not to any great extent, we hope. But it is easy for a young man to answer for himself, whether he is of the class of drones or dependents, or one of those upon whom natural dependents may lean with safety to themselves.

THE man who, but for revolution, would now be tycoon of Japan, is a student in Paris, living quietly as M. Tokugawa. He is small, lithe and well dressed. His income is $200,000 a year, of which he spends a little on himself, and sends the remainder to his followers who were ruined by the revolution. Very few of his fellow-students know who he is. He will learn all he can at the Sorbonne, and will then go to London to continue his studies. Eleven years ago, when the Japanese embassy went to London, he, then a little boy, headed it, as brother of the tycoon, and the prince of Wales went to Dover to welcome him.

THE Nebraska people are both odd and persistent. They elect every two years a "contingent" congressman. The law allows them but one regular congressman, and they but satisfy their vanity by electing a "contingent" member. The contingency consists in being seated by the strength of an increase in population since the last federal census was taken. It is an utterly improbable contingency. If the Nebraska "contingent" should be seated, Texas would fairly howl because she did not elect eight or ten of them.

THE problem of using compressed air for street car propulsion has apparently been successfully solved in New York. A compressed air car has been running on upper Second avenue for a month, and gives such good results that the horse railway company has resolved to dispense with the horses on the avenue above the new station at Twenty-seventh street as soon as six of the compressed air cars can be built.

NOTHING shows the recuperation of the South any more clearly than the rapid increase in the business of her railroads, and the consequent appreciation of railway stocks. Thus the shares of the Central Road in Georgia have increased twenty cents on the dollar in two weeks, and the business of the Company for September is largely in excess over the corresponding month of that year.

OVER 132,000 persons are employed on the East India Railroads. The greater number are natives. In fact, the working of the lines is practically in their hands—in some not even under European supervision.

JOSIAH TURNER has always been fond of rings. His last attack was the ring of a cow-bell.

A Health-Destroying Vapor

Is generated by the action of the suns rays upon damp decaying vegetation, stagnant pools, and marshy, low lying tracts. The true nature of this miasma is by no means clearly understood, but there are two facts in relation to it that are. The first is, that the periodical fevers which it breeds are of the most virulent type; the second is, that these maladies are rarely cured, although they may be ameliorated, by the ordinary remedies employed to overcome them. The true antidote to the effects of miasma is Hostetter's Stomach Bitters. This medicine is one of the most popular remedies of an age of successful proprietary specifics, and is in immense demand wherever on this Continent fever and ague exists. A wine glassful three times a day is the best possible preparative for encountering a malarious atmosphere, regulating the liver, and invigorating the stomach.

An old physician, retired from practice, had placed in his hands by an East Indian missionary the formula of a simple vegetable remedy, for the speedy and permanent cure of consumption, bronchitis, catarrh, asthma, and all throat and lung affections, also a positive radical cure for nervous debility and all nervous complaints, after having tested its wonderful curative powers in thousands of cases, has felt his duty to make it known to his suffering fellows. Actuated by this motive, I will send free of charge, to all who desire it, this recipe, with full directions for preparing and using, in German, French or English. Sent by addressing with stamp, naming this paper. W. W. Sherar, 149 Powers Block, Rochester N Y.

BEAUTY:

OR THE

Secret of a Fair Face

AN ITEM OF INTREST TO EVERY LADY WHO DESIRES TO BE MORE BEAUTIFUL THAN SHE NOW IS.

Unfortunately not one woman in a hundred, subjected to the whims of an American climate possesses that basis and starting point of real beauty—a pure and clear complexion.

What nature has thus denied, art must be called upon to furnish.

It can be done; it is done daily. Prof. W. E. Hagan placed beauty within the reach of every unblessed daughter of Eve when he discovered that surprising article known in fashionable circles as the true secret of beauty, and called

MAGNOLIA BALM

The MAGNOLIA BALM is a sure device for creating a pure and blooming complexion.

It conceals all natural blemishes in the most surprising and effective manner.

It removes all roughness eruptions, redness blotches, freckles, and tan with magical power.

It drives away all evidences of fatigue and excitement.

It makes the plainest face beautiful.

It gives the complexion a dazzling purity and makes the neck, face, and arms appear graceful, rotund, and plump.

It makes a matron of 35 or 40 look not more than 20 years old, and changes the rustic maiden into a cultivated city belle.

The Magnolia Balm removes all blemishes and conceals every drawback to beauty; and while it is as harmless as water, it is so lifelike in its effects that the closest observer cannot detect its use.

Ladies who want to make themselves attractive can make an absolute certainty of it by using HAGAN'S MAGNOLIA BALM, and we know of no other way. It is the cheapest preparation in the world, all things considered, and may be had at any drug store.

HOME REMEDY.

THE MOST WONDERFUL DISCOVERY OF THE AGE!

A CERTAIN AND SPEEDY CURE FOR SCROFULA.

FACTS ARE STUBBORN THINGS!

"It will Cure You if You Give it a Fair Test."

It gives me much pleasure to be able to state that I have derived an effectual cure of Scrofula from the use of Mrs. Joe Person's remedy for that disease. I had suffered from Scrofula for more than three years, and had despaired of ever getting well. I was treated during that time by three very eminent physicians, without any good result. I then went to the National Surgical Institute, at Atlanta, Ga., and was treated there more than two months, with no better result than my family physicians met with. After I returned from the Institute I was persuaded to try Mrs. Person's remedy, and I had not used it more than a week before I discovered its curative and healing properties. My sores soon began to heal, and the color of my skin changed as fast as the sores healed. I had not thought of ever getting well again, but my hopes increased, my low spiritedness fled before the remedy, and I am now enjoying splendid health and am in good spirits. The remedy is mild as a purgative, and a strong tonic; it will heal the most stubborn sore in three weeks if taken regularly. It is my opinion that it should be taken some time after the sore is healed, to remove the cause of its effects. It should be taken regularly by all means, for I have sometimes neglected it, from the pressure of business, and in all cases found that the cure already made would commence to retrograde, and for this alone it should be taken regularly until an effectual cure is completed. Nothing should prevent regularity in the use of the remedy and it should be taken at the proper time. I would recommend to all who are suffering from Scrofula to try it. It will surely cure you if you give it a fair test. I speak from experience, and not from hearsay. I am a grateful recipient of a cure from the use of it and I am under many and lasting obligations to Mrs. Person for the great relief I have obtained from its use. Sufferers, try it and be cured, is my advice.

I am, respectfully,
JAMES A. MORRIS.

LOCAL BRIEFS.

——Chief Justice Smith is in New York, under medical treatment.

——The firm of J. Y. Jackson & Co., have closed their store on Wilmington street.

——Geo. Daniels, white, a United States prisoner, was put in jail yesterday, for some violation of the revenue law.

——Complaints are made in Tarboro that the Raleigh papers do not go to that place regularly. The News desires to inquire why this is.

——A larger crowd than ever before is expected to attend the Fair next week. So boarding house keepers can prepare to spread mattrases on the parlor floor.

——If the R. L. I. turns out in full force and does its best on Tuesday, it will crrry off the palm for being the handsomest and best drilled company in the State.

——The farmers should rush in their produce in the early part of next week, as there will be many extra mouths to feed and the market is not over stocked; chickens, eggs and butter are noticeably scarce.

——Weston H. Edwards, Esq., lately a Justice of the Peace in Cedar Fork township, yesterday tendered his resignation, which was accepted. Judge Upchurch then appointed Calvin J. Green, Esq., in his stead.

Attention Firemen.

Those who have shirts, belts, and caps belong to the Rescue Fire Co., and are unable to turn out Fair week are requested to leave the same at R. H. Bradley's store.

For the Sufferers.

The Executive Department yesterday received from Miss Hattie Perry, of Greenville, N. C., the sum of $2 for the relief of the sufferers by yellow fever. The amount was promptly sent on.

Personals.

Mr. J. P. Gulley, one of the cleverest merchants in Raleigh, has returned from his business trip North.

E. B. Perry, Esq., the popular young Sheriff of Franklin county, was in the city yesterday.

Tarboro and Scotland Neck.

A correspondent states that application will be made to Congress at its next session to establish a daily mail route from Tarboro to Scotland Neck, with offices at Roseneath and two other points on the route. It should be established.

Fine Stock.

Some fine horses have arrived for the exhibition next week. Charlotte, Weldon, and other places will be represented by some magnificent stock. The large purses offered make the races both interesting and attractive, and the result will be shown in perhaps the best time ever made on the track here.

Removal.

The editorial rooms of The Farmer and Mechanic, the Grange State Organ, have been removed into the Bagley Building, on Fayetteville street, opposite the post office, where Grangers and others visiting the State Fair next week are invited to call upon the editor.

For the Penitentiary.

Sheriff E. B. Perry, of Franklin county, yesterday delivered to the authorities at the Penitentiary five negroes, all convicted of larceny, and sentenced to the terms of imprisonment below given:

Silas Green, 5 years; George Dent, 4 years; Dallas Alston, 2½; Dives Perry, 1½; Solomon Davis, 10.

Tip Hill, Esq.

This gentleman was in the city yesterday. He is well known as having long been one of Mr. Turner's staunchest friends in Franklin. He says that he has at his house a complete file of the "Sentinel" up to the day of its suspension, but that when Mr. Turner received the Radical endorsement it was too much for him. It is a pleasant sight to see good and true men like Tip Hill and Jack Thomas working for Jo. Davis. Mr. Hill is confident that Turner will not get a dozen Democratic votes in Franklin.

Let the Boys Parade.

The Raleigh Light Infantry will parade with the State Guard on Tuesday and Wednesday of Fair week. This company is one of the best in the State, and is justly styled "The pride of Oak City." Its Captain and friends are anxious that it shall present an appearance on Tuesday second to none. The Guard will be reviewed by the Governor and staff on that day. There is a disposition on the part of a few—very few we are glad to say—of our merchants to keep their salesmen employed during Fair week and not allow those who are members of the company to parade with it. This determination receives the well-merited disapproval of nine-tenths of the community. We hope that such merchants will alter their minds and let the boys turn out in full force. If their employers think that it will be too great a sacrifice to allow two days to the boys, at any rate give them Tuesday, for that will be the big day for the "soldier boys."

The Weekly News.

The WEEKLY NEWS continues to grow in popularity throughout the State. It is not only a most excellent paper, but its low subscription price of $1 per annum puts it within the reach of all. The public naturally feel that they are interested in demonstrating that a good paper can be sustained at reasonable rates to suit the times.

The Telephone at the Fair.

Manager B. W. Starke, of the W. U. Telegraph Company, who is an enthusiast as to telephones, will have one of those marvels of modern science on exhibition at the Fair Grounds, where it will not be the least of the many attractions there shown. There will be six miles of wire in use, and every convenience will be prepared for the accommodation of the curious. Thousands who have never witnessed the powers of this invention will thus have a good opportunity to do so.

A Good Idea.

The Register of Deeds is sending out blank returns of election to the registrars of the various townships. An addressed envelope is sent with them, in which they are to be returned. On the back of this they are instructed to give the vote as recorded, so that the accurate result may be given the public as soon as the reports come in, without waiting until the magistrates assemble to verify the votes. Reporters will certainly appreciate this convenient plan, which will save a deal of anxious delay.

A Diabolical Nuisance.

A pretty strong head-line, but we know of nothing else that will at all meet the requirements of the case, and we write these lines simply to inquire if something cannot be done to suppress the hissing, whistling, screeching fiends at the theatre. They generally find places in the galleries, and seem to have no other purpose in view than to make themselves supremely disgusting and offensive. Both of our theatres will be in full blast next week and we trust the police will look after these gentry.

Abstracts of Taxes.

The State Auditor yesterday received abstracts of listed taxables from the following counties:

Onslow, by Jas. O. Frazel, Register of Deeds:

Killed by the Train.

On Thursday night about 9:30 o'clock, as the mixed train of the R. & A. Air-Line was backing from the Central to the R. & G. depot, just as it passed under the bridge on Hillsboro Avenue, Alex. Hicks, a colored brakeman, fell off, and was instantly crushed by the wheels. Hicks was walking on top of the cars, and by an unfortunate misstep fell between them. The much mutilated man was picked up and carried to his home on North street, and two physicians were summoned. These found that the wheels had passed over both the wounded man's legs, crushing them as far as the thigh. He was perfectly conscious for some time, and said that he thought only two wheels passed over him. The physicians at once saw that there was no chance of anything but death, and that speedily, from the terrible wounds.

About 1 o'clock yesterday morning, Hicks died. He was a member of the choir of the second Baptist church, colored, and also of the Oak City Blues. His funeral will be held this afternoon, when he will be buried with military honors by his command.

The Encampment.

Yesterday Adjutant-General Jones, that efficient officer and zealous worker, came down the road. He will to-day make all the arragements for the campetc. The tents would have been pitched yesterday, but for the badness of the weather. A force of men will go to work at an early hour to-day, and soon the rows of white tents will rise on the beautiful ground selected. This is the large field just in rear of the old Saunders property, on Hillsboro avenue, and is admirably fitted for the purpose, being free from obstacles of any kind, and conveniently located as to water. No better place could have been chosen. The tents will be up by nightfall. There are some things necessary for the comfort of the troops which the State does not provide, and which will have to be furnished here. A committee are calling on the citizens to lend their aid. Let the contributions be liberal, and such a welcome be given the soldiers as they deserve. Carolinians should never forget the boys in grey.

About Sidewalks.

The poet says that "time, at last, sets all things even," but the good people here think that the truth of his words does not always hold good. Especially do they believe this when they see the condition of the sidewalks, with, perhaps, an hundred different levels, adapted to all grades. Those portions of the pavement which are level are in many places, on Fayetteville street rendered absolutely dangerous to pedestrians by reason of the holes worn in them or the unevennesses caused by the settling of the stones. Only a day or so ago the Solicitor of the Criminal Court was so badly lamed as to even now be compelled to use crutches. This sort of thing has been goingon until the patience of some people is at an end. Some of the merchants who have put their sidewalks in order ask that the matter be thus brought to the attention of the authorities, in the hope that there may be some abatement of the nuisance. It is therefore laid before them and the public, who may see the danger and inconvenience which attend such a condition of the public thoroughfares.

Our Telegraph Office.

Every one in Raleigh who has had occasion to use the telegraph office, has complained of the inconvenience of the present location. We believe that the officials themselves feel this inconvenience even more than the public. We learn that the company's lease on the present office expires in December, and we trust the public can look forward to seeing the telegraph office comfortably located somewhere on a ground floor. It would suit the business men of Raleigh well, if a location could be found somewhere near the corner of Martin and Fayetteville streets, that being the business centre of town.

Just Received.

Messrs. Cook & Wainwright have just received one car load of those Tennessee wagons; they are first class wagons and will be sold at panic prices. They also have a lot of the Arlington Guano for wheat.

JONES' BAKING POWDER

FOR SALE BY ALL GROCERS.

We ask all cooks, housewives, and the general public to give our goods an impartial trial. This Powder is carefully prepared upon scientific principles—the result of long and careful experiments and tests in chemistry. In its proportions and compounding, it is the perfection of science, and is recommended by the leading Chemists in the United States, whose certificates we have. It is perfectly pure and wholesome, and saves time, labor and money to every consumer. It stands Unrivaled; we challenge the world to produce better pure and more wholesome goods.

REASONS WHY IT SHOULD BE USED:

A BARREL OF FLOUR MAKES ABOUT 40 POUNDS MORE BREAD
IT NEVER FAILS AND ALWAYS PLEASES THE CONSUMER.
IT IS THE PERFECTION OF SCIENCE IN COOKERY.
IT IS A COMFORT FOR EVERY HOME.
YOUR BREAD WILL NEVER BE SOUR.
YOUR FOOD WILL BE THE BEST.
YOUR BREAD WILL BE WHITER AND RICHER.
YOUR HEALTH WILL BE PRESERVED BY ITS PURITY.

WARRANTED TO KEEP IN ANY CLIMATE

We do most earnestly caution consumers of Baking Powder against using adulterated and cheap goods, as no good and pure Baking Powder can be sold for less than ours.

An analysis of the cheap clap-trap spurious adulterated goods called Baking Powder would startle the community of consumers beyond precedence, as most of it is not fit for use, and would not be allowed to be sold were the laws enforced; yet goods of this kind are manufactured and sold by dealers because offered cheap by unscrupulous manufacturers. We caution those who value health, and appreciate good, wholesome living to buy only Pure Baking Powder. Jones' Unrivaled is such. It is an established article throughout the West and South, and is recommended by the highest authority for Purity and strength.

All first-class storekeepers have it because it is pure and can be relied upon, and credit to their stock.

Merchants are authorized to warrant our goods where directions are followed.

Our statements are correct and are backed by chemists of note and experience, and we hold ourselves ready to prove our assertions.

We are offering goods of undoubted purity, which are in their compounding, as we claim "UNRIVALED."
